Entrepreneurship and Innovation

Technion-Israel Institute of Technology is Israel's premier center of science and technology education and applied research. Ranked among the top universities in the world, Technion is home to nearly 13,000 students, 18 faculties, 50 research centers and a distinguished faculty of over 600 including three Nobel Prize laureates. Technion is the birth place of many of Israel's most exciting tech innovations and helped give rise to the country's modern start-up economy, attracting international tech giants and inspiring hundreds of start-up enterprises in Israel and throughout the world. Technion has partnered with Cornell to establish a new, innovative applied science campus in New York, which aims at being a "game changer" for the city's tech sector. Join us and explore Israel's business ecology through rigorous real-life learning and practical experience.

Program Details

The Entrepreneurship and Innovation program combines exciting academic course work with hands-on experience. The program addresses one of the most critical fields in modern technology management: the initiation, development and expansion of technology firms in their early life. Students will learn how to identify, value,
